Estimate for

964 Towlston Rd
McLean, VA 22102

Project Overview

This estimate covers comprehensive pack-out and pack-in services for contents from the damaged areas (basement and 1st-floor bathroom), transportation to and from a climate-controlled storage facility, two months of storage, and debris hauling for construction waste generated by other mitigation companies. This estimate also includes the removal and disposal of all packing and moving-related debris generated by our operations. Special consideration has been given to the challenging access to the basement and the handling of heavy and fragile items.

Contents Management & Moving Services

This section covers the labor, materials, and transportation associated with packing, moving, storing, and eventually returning the specified contents.

Labor Considerations: Given the challenging basement access (long walk, slippery grass, slope, backyard gate) and heavy lifting involved (ping pong table, heavy furniture), an elevated labor rate for a skilled crew is applied. A minimum 3-person crew is anticipated for the pack-out and pack-in phases, with a 2-person crew for transportation and storage retrieval.

Crew Rate (3-person): \$250/hour

Crew Rate (2-person): \$130/hour

Packing Materials: Based on inventory, including specialized materials for fragile and oversized items.

We are committed to providing accurate and transparent estimates that meet both industry standards and client requirements. Please do not hesitate to reach out if you have any questions or require further clarification on any aspect of this estimate.

- This estimate is based on the provided contents and debris inventory. Any significant discrepancies found on-site may require a revised estimate.
- Assumes clear access to the property on scheduled dates. Any delays due to denied access or unforeseen site conditions may incur additional charges.
- Assumes all necessary utilities (e.g., electricity for lighting) will be active and available at both origin and destination locations during service hours.
- This estimate does not include costs for any necessary parking permits or street closure permits that may be required by local authorities. These will be the responsibility of the client or general contractor.
- This estimate does not include costs for any third-party services not explicitly listed (e.g., specialized cleaning, restoration of damaged items, utility disconnections/reconnections).
- Any changes to the scope of work after the approval of this estimate will require a written change order and may result in additional charges.
- Labor rates include reasonable travel time to and from the job site within the immediate service area. Excessive travel outside of this will be billed separately.
- It is assumed that the client or their insurer will cover all necessary insurance for the contents during transit and storage. Our basic liability coverage is included, but enhanced valuation may be available upon request.
